

The Blade

The Boathouse Decibel Level is Rising!

Laughter... Shouting...Boats and Cars Everywhere

GUESS WHAT!

THE JUNIOR ROWERS ARE BACK!

With ever growing participant numbers, newly purchased equipment, a cadre of excellent coaches and a broadened competitive schedule, the DRC Junior program is now in full swing.

All five schools in the DRC program will have boats on the water each weekday afternoon, 3:30 to 5:30 pm with Ursuline Academy and possibly Cistercian School with additional rowing after 11:00 am on Saturday/Sunday. This level of activity will continue through the state championship April 29, 2001, and for those programs entered in national junior regattas during May there will be additional activity through the middle of that month. Members should acquaint themselves with the schools' event schedule and practice times to avoid rowing conflicts these next few months.

Daylight Saving time is with us on Sunday, April 1st and this should make more rowing time available for members in late afternoon without getting into a rowing traffic jam.

Participating schools at DRC are Episcopal School of Dallas coached by Troy Howell (DRC board member), Greenhill School coached by Kristen Resor (DRC board member), The Hockaday School coached by Jennifer El-Sharif, Ursuline Academy coached by Bob Houston (DRC board member) and Cistercian School coached by DRC member Chip Northrup. These schools' first cousin and staunch competitor, St. Marks School of Dallas, rows at Las Colinas' Lake Caroline, but will host the DRC schools with an invitational March 31st. St. Marks is coached by DRC member David Hirsch.

Each School will average 20-22 rowers except Cistercian which will have about one half that number, so the boathouse has about 100 people

A Greenhill School Girls quad readies to leave the DRC dock for an afternoon's training session.

rowing/erging/coaching each afternoon. With 2-3 launches, 7-10 quads, 4 level 3s and a couple of doubles on the lake simultaneously you can picture a bit of rough water and traffic so this suggestion.....DRC rowers be advised to schedule your rowing activity these next 6 weeks before 3:30 pm or after 6:00 pm weekdays and prior to 11 am weekends.

FROM AMY.....

Dear Members,

April is almost here, and we are advancing some of our goals for 2001. I am pleased to announce the board has approved the hiring of a rowing coach, Veronika Platzer, for the summer months of June, July and August. Veronika, a top athlete in rowing as well as track and field, has extensive coaching ex-

perience with Craftsbury Sculling Center and currently is the Men's Rowing Coach at Mercyhurst College. She will direct our Learn to Row Classes and be available for rowing lessons for our regular members, which will be an entirely new experience for the DRC's active rowers.

Over the years most of us have, in essence, been self-taught rowers, and those of us who race have experienced a great deal of success in single sculls but only limited results in team boats. Given our strength in the 1X's and the size of our club I believe we should enjoy the same success in team boats, and Veronika should help us achieve that success. In addition to lessons and coaching, Veronika will have other responsibilities which we will announce at a later date. I am truly looking forward to her arrival and I know everyone of our members

will enjoy working with her.

Our social committee has been in action with Herman Bockelmann and Marie Mulligan investigating destinations for club carousing. (see below), and Nelson Spencer continues to investigate the possibility of expansion of facilities for rowing on Bachman. This is a very exciting possibility and also one that will require a great deal of commitment in order to see it through to fruition. Please contact Nelson if you find this an intriguing opportunity and can help make it a reality.

I am interested in feedback from our membership, so please feel free to contact me either at amym@interceramicusa.com or at home, 214-252-0747.

Good Rowing, Amy

BOCKELMANN BESTOWS BLESSING ON VENERABLE "CLUB SCHMITZ"

LET'S HAVE SOME FUN...

As the newly appointed Chairman of Entertainment for the DRC, I have taken it upon myself to set the stage for some casual socializing in the grand manner of our old friend Jim "Bugs" Moran. Jim knew that a group of rowers and a little drinky-poo would always lead to a good time. His famous "Finishline Punch" (stolen from Dick and "Sweet Thing" Parker) would knock everyone's socks off. After careful canvassing of suitable places for DRC after rowing casual get-togethers, I have decided on the venerable, famous, and very elegant "CLUB SCHMITZ" (see photo).

The concrete block building oozes confidence, the hamburgers or grilled chicken and the draft beer are excellent. There are pool tables, friendly waitresses and reasonable prices, dear to every rowers' heart.

Club Schmitz is located at Denton Drive and Harry Hines, just a few minutes from the DRC. No dress code here. Mr. Schmitz's daughter will make a DRC sign to be prominently displayed at the club declaring "Club Schmitz" the **Official Bar of the DRC.**

It doesn't get any better. Stay tuned for the time and date for the first official get-together. All this is designed to share some real camaraderie, especially involving new members and make new rowing friends. The most important thing is, we are a club and **NEVER FORGET IT.**

Archival Photo, Smithsonian Institute. Former Harry Hines Golf & Country Club 19th Hole.

Stay tuned for moon-rows, dining, bowling? or synchronized swimming? Let me hear from you, I am your Social Chairman and open for your creative suggestions.

Hermann Bockelmann

Bockel3240@AOL.com

NOTICE.....NOTICE Newsletter Change!

In addition to being mailed to you, this edition of the Blade will be posted on the DRC web page, www.dallasrowingclub.com, and you can read it online or download it to your computer and print it out. Following this edition the newsletter will become an electronic newsletter, posted on the web page and, if you choose, sent to you directly via your e-mail address. You can view the issue in color versus black & white in the printed version. This will save the DRC some \$3000.00 annually in printing and postage.

Instructions for downloading are given on the club's web page. If you wish to receive the issue via your e-mail you must provide that address to: **Dan Ellinor** at elldan@earthlink.net

If you have questions please give Dan a call at **214-358-2036**. If you get his voicemail just leave a message and he will call you back promptly.

BACHMAN DREDGING UPDATE

Progress is being made on completing the Engineering Phase of the Bachman Lake dredging project according to the latest report from Lloyd Denman, project engineer for the project. Hopefully negotiations with pending fill sites will be completed by mid or late April which would permit dredging to actually begin by late August or early September, according to Denman.

Lloyd gave the Blade a brief description of how the work would lay out as far as the dredging pipeline is concerned, and delightfully it appears that if things go as planned the presence of such delivery systems to the fill site will not be anything horrendous for people using the Bachman Lake recreation area. Denman has great confidence in the engineering firm doing the project's planning as they have substantial prior experience with the White Rock Lake project of two years ago. He will provide the DRC a specific report on scheduling, construction of dredging facilities and time frames when the final, or dredging phase, is on hand.

Have a Question? Need a Voice?

At most clubs, such as the Dallas Rowing Club, members have continuing questions about club policies, activities and rules as many of these items change from year to year. Often a new member has one or more questions but doesn't know many members or which members sit in policy and activity determining positions.

Your newsletter, The Blade, would like to offer all DRC members the opportunity to ask questions as well as make suggestions about your club instead of remaining silent and hoping you figure it out at a later date. The DRC is not perfect in everything we do even though the club is considered one of the most outstanding in the USRowing club group. To that end, suggestions on improvement of existing policies and the creation of new ones to make your membership happier are most welcome. The Blade simply wants to be the repository for those thoughts if you don't know where to direct them.

Should you have such questions/suggestions regarding the DRC or The

Blade itself please feel free to e-mail The Blade at Dan Ellinor's e-mail address, **elldan@earthlink.net**, and we will get you your answer or direct you to the person who can provide that answer.

Additionally, should you prefer specific type stories in your newsletter or would like to make a story contribution please convey those thoughts to Dan as well. All such correspondence should be signed and please indicate if you do not desire your correspondence to be published in the Blade. Thanks

THE LADDER PROGRAM IS HERE

With some concerns about DRC member interest, Joe Wintz, who is organizing the club's first Ladder Program, has added some flexibility and simplicity to the startup which should make it easier for members to decide on participation.

As in most ladder activities be it tennis, golf or handball, the simple objective of the program is to let DRC members discover where they stand in the pecking order of rowing speed in our Club. However, if there is no ladder activity in existence you have to develop a starting point for everyone. Joe selected the 1000 meter ERG time as a prudent way to place rowers on the originating ladder. Your ERG score does not mean you are necessarily faster than the person below you as technique on the water is the final determinant of who is the fastest rower, but **IT'S A STARTING POINT!**

Here is the latest program addition from Joe Wintz:

- 1 A folder has been placed at the sign in desk. This folder contains sheets that will be use to initially rate those rowers who want to participate in the sculling ladder.
- 2 Please enter the date, your name and your best 1000 meter ERG time in the appropriate columns by April 7th. This information will be used to list the rowers for Challenge Racing.
3. If you don't have an ERG time but you still wish to participate add your name to the list without an ERG time and you will be listed in the order of your sign up date.
4. Information about the Challenge Races will be placed in a folder at the sign in desk after the initial listing has been

made by Joe.

5 Everyone take a good look at this new activity as Joe has had years of experience in participating in such a program and feels the DRC will have a lot of fun this Summer participating in the Ladder Program.

RACERS! PAY ATTENTION...

With unbelievable patience Bob Houston has served the DRC as Away Regatta Director for more than 5 years, and for those who attend regattas it's a nice feeling to know that Bob is on hand to handle whatever comes up as he has seen about all that can happen to a truck pulling a trailer with 15-25 fiberglass shells.

However, even Bob has his limits when it comes to patience and you racing rowers have about used up all of that remarkable quality he has shared with the DRC. Bob has published a very detailed guideline booklet on how a trailer is loaded to attend an away regatta. In addition to the simple tie down mechanics which he details and follows up on with tenacity, Bob has come on another problem that seems to have taken on a life of its own.... the problem? DRC members who don't follow the loading guideline rules and who don't pay seat fees promptly. Embarrassingly we are not talking about 40-50 DRC members. If you will check the regatta entries for DRC you will find about 10-14 persons participating and few, if any of them, are new to the racing activity!

If you are racing or want to begin racing, see Bob about his loading guidelines. They are written down in fine detail. Learn when you are supposed to be at the boathouse for loading and just what your responsibilities are depending on what equipment you intend to race. The seat fee signage is prominently displayed in the boathouse. It is meant for **YOU!** Don't make Bob become an accounts receivable clerk in addition to all the other things he does for the Club. Just **Pay Your Bill** before you go to the regatta. The fee for all but the nationals is just \$20.00 with the latter event costing \$50.00. Have fun! **Dan Ellinor, Editor**

Award Seekers...listen Up!

DRC member Bob Houston has for years managed the club's annual awards program where recognition is given to those members who have the most number of miles rowed, most number of meters logged on the ERG and the most number of points scored in regattas.

Bob reminds all of us that the log book for 2001 is the controlling document for these awards, and everyone has the responsibility to keep up to date covering your activity for the year. The log should reflect, by month, your activity on the water and on the ERG. If you are a new member and unfamiliar with the log book and how you should document your efforts Bob asks that you contact him in the boathouse for the needed information. Here are your instructions for documentation:

MILES ON THE WATER: Record all miles rowed at home, at regattas, on vacation or away on business. **METERS ON THE ERG:** Record all your ERG meters at the DRC or any other location. **POINT TROPHY:** Rowers receive 5 points for a

first place finish, 3 points for second, and 1 point for third for each race during 2001 regattas. The top three finishers in each division will be recognized and the point trophy winner actually receives a trophy for that accomplishment. Bob will calculate your race points, but you have the responsibility of checking his recordings for accuracy. Cutoff date for all 2001 activity is November 30, 2001.

Coaching and Rebuilding

Coaches of the DRC's member schools face the annual problem of building a winning team from the prior year's veterans plus all the novice rowers just beginning the sport. Needless to say it's great to have a whole lot of veterans, but that doesn't seem to be the most common occurrence. Here's the status of the DRC schools for 2001

Episcopal School of Dallas: Total rowers in program, 22 to begin the season after last year's national silver medalists wins. Here's the catch.....ESD lost 11 seniors and has only 5 boys and 3 girls returning from last year. A rebuilding year for Coach Troy Howell. He expects to have a varsity 4X for

boys and girls plus 2 Novice 4Xs. **Greenhill School:** Total rowers in program, 33 to begin the season. On the boys' side there are 15 rowers, but only 5 returning from last year. However, on the girls' side there are 18 rowers with 11 returning from last year. A great beginning for Coach Kristen Resor. She will have 1 boys varsity 4X plus 2 novice 4Xs and 2 girls 4Xs and a Junior Varsity 4X. Greenhill has 2 new boats this year for a total of 4 quads.

Ursuline Academy: Coach Bob Houston, after a most successful 1st year in 2000 has 20 girls in his program with 13 returning from last year. His plans call for 2 varsity 4Xs, 1 JV 4X, and 2 novice 4Xs. Bob's girls row 7 days a week so improvement is quick.

Cistercian School: Coach Chip Northrup has the smallest program of the DRC schools. He will have only 1 boys varsity 4X, but all four rowers are returnees from last year so they should give a good account of themselves.

Hockaday School: Coach Jennifer El-Sharif, assisted by DRC's Amy Molenaar, has 20 girls in her program with plans for 2 Varsity 4Xs and 2 JV 4Xs.

Stuff You Need to Know....

February Board of Directors Meeting

With 14 directors present for the February meeting the following actions were taken:

1. The January board decision regarding the "closing" the lake during extreme weather was rescinded. Instead, the board decided to use signage posted in the boathouse and announced in The Blade stating proper guidelines for rowing conditions.
2. Motion passed stating that youth membership will include access to club doubles and quads, excluding the new elite Hudson doubles and quad. All must be checked out for level of shell in question and a coach must be present on the water.
3. Motion passed that during scheduled practice times youth members may use all the level 3 Aero singles not reserved by a DRC member or required for scheduled DRC event (lessons, races, etc.)
4. Motion passed to authorize and fund the services of rowing coach & trainer, Veronika Platzer, for Summer.
5. Tony Palms, Clay Ziegler and David Margolis will conduct the learn to row classes in April and May after which Veronika will assume those duties.
6. Motion passed to have informal Spring Scrimmage. Other clubs will be notified of this change for 2001.

7. Herman Bockelmann will initiate a program to recognize volunteers with the "Shovel Award" ala JD's 2000 award.

8. Board member David Kramer submitted his resignation as he is being transferred to Tulsa, OK..

9. Other activities included increasing liability insurance, rejecting an offer for a club shell for sale, and approving new software for the treasurer.

March Board of Directors Meeting

With 10 directors present for the March meeting the following actions were taken:

1. Accepted the resignation of Evelyn Ireland who resigned due to time constraints on her part.
2. The issue of lane violations by youth rowers was raised. Mary Brown will contact the individual coaches and request that a consistent and absolute penalty be instated for any crew that violates the traffic pattern.
3. A committee of Bob Houston, Jon Werner, Tony Palms and Clay Zeigler was appointed to explore the cost and planning needed to add a new dock.
4. The annual racing travel budget was approved and capped at \$7000.00
5. Secretary Chuck Ford will present pricing to an out of town rower who has expressed interest in buying our club doubles which are "Fire" and the Avanti 2X.
6. Rental rates for the club's other doubles, 5C & "Bugs" Were set at \$100.00 each per month.
7. Seat fees for Junior rowers were set at \$10 p/event, but DRC rowers have priority for trailer spaces
8. Jon Werner will arrange for repairs for DRC A motor
9. Tony Palms will insure there will be evaluators on

hand for rowers desiring checkouts.

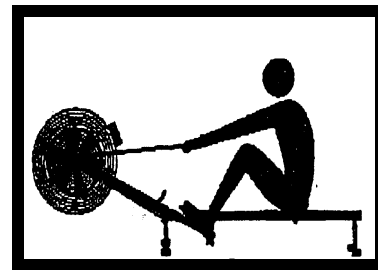

10. Clay Ziegler will consolidate and edit the plethora of signs that presently exist at the boathouse.

11. A discussion was held regarding the problems being experienced by DRC Away Regatta Chairman, Bob Houston, who has had difficulties with racing participants improperly loading the trailer, not being present at scheduled times to accomplish the loading and failing to pay seat fees in a timely manner. An action plan is in the making to remedy this situation.

DRC ROWERS, LISTEN UP!

DAYLIGHT SAVINGS TIME IS HERE, SPRING IS HERE, AND ALL OF YOU MEMBERS FROM 2000 THAT HAVEN'T RENEWED YET ARE GOING TO WANT TO ROW RIGHT AWAY. WON'T YOU WRITE THAT CHECK TODAY. WE WANT YOU WITH US!

RACING

S.W.E.A.T. REGATTA.....

SouthWest Ergometer Amateur Tournament Yields Record Number Of Boston Qualifiers From a Record Number of Participants

This year's SWEAT Regatta, held at Episcopal School of Dallas and superbly managed by DRC Board Member and ESD coach Troy Howell along with his excellent junior rowers, found a record field of 227 with 4 entries qualifying for the C.R.A.S.H.-B Sprints World Indoor Rowing Championship in Boston. Previously only a single rower qualified for Boston.

Youthful rowers dominated the entry with 115 collegiate men/women and 84 junior boys/girls. Our faithful Master's rowers

(aged relics 30 to 70+), along with 6 Open entries comprised the balance of the field. The highest prior entry was 143 in 2000.

The ESD gymnasium reverberated with loud and continuous cheering from the hundreds of observers standing behind the ERGs where their friends and fellow teammates were giving their all. The computer hookup of the ERGs makes for excellent spectator viewing (see photo below) as you don't have to be on the front row to see how your favorite is doing.

SMU coach, **Doug Wright**, and U of TX Coach, **Carie Graves** brought great teams

THIS CHEERING CROWD..... ALONG WITH THESE DISTINGUISHED COACHES..... SEE THE RACE LIKE THIS!

2001 HEART OF TEXAS REGATTA. MARCH 17 Austin Rowing Club.....DRC DOES WELL!

It was a cloudy, windy and rainy day for the ARC's stellar racing event, but the racing site was beautiful, the food fabulous, the hospitality better than ever and the hour and a half rain delay gave all participants a chance to renew old friendships and eat peanut butter & jelly sandwiches. The weather didn't deter DRC's rowers from winning a pile of medals following the break and a good time was had by all. A special welcome to Roderick Clayton of the DRC who made his racing debut with a fine Silver medal finish in the 1X. The DRC's junior teams, along with a host of junior teams from Austin, Woodlands and Oklahoma City, got a taste of what their statewide competition will be in late April at the state championships It's very good. It will be both fun and interesting to see how the DRC coaches deal with the task ahead.
